INDEX TO VOLUME III

AERODYNAMICS

A Direct Aerodynamic Proof of the Biot-Savart Law, J. Lockwood-Taylor, p. 238 (November).

A New Approach to Thin Aerofoil Theory, M. J. Lighthill, p. 193 (November).

A Note on Supersonic Wing Integral Equations in Unsteady Flow, J. W. Miles, p. 294 (February 1952).

Airscrews at Supersonic Forward Speeds, J. C. Burns, p. 23 (May).

Pohlhausen's Method for Three-Dimensional Laminar Boundary Layers, J. C. Cooke, p. 51 (May).

Supersonic Flow over Thin Symmetrical Wings with Given Surface Pressure Distribution, F. A. Goldsworthy, p. 263 (February 1952).

Supersonic Flow Past Bodies of Revolution with Thin Wings of Small Aspect Ratio, P. M. Stocker, p. 61 (May).

The Profile Drag of Yawed Wings of Infinite Span, A. D. Young and T. B. Booth, p. 211 (November).

The Theory of Aerofoils in Unsteady Motion, J. R. M. Radok, p. 297 (February 1952).

AIRSCREWS

See also Ducted Fans.
Airscrews at Supersonic Forward Speeds, J. C. Burns, p. 23 (May).

AUTOMATIC CONTROL

See Deck Landing.

AXIAL COMPRESSORS AND TURBINES

The Flow of an Incompressible Fluid through an Axial Turbo-Machine with any Number of Rows, J. W. Railly, p. 133 (September).

BISHOP, R. E. D.

Longitudinal Waves in Beams, p. 280 (February 1952).

BOOTH, T. B. and A. D. YOUNG

The Profile Drag of Yawed Wings of Infinite Span, p. 211 (November).

BOUNDARY LAYER

See Aerodynamics.

BURNS, J. C.

Airscrews at Supersonic Forward Speeds, p. 23 (May).

COOKE, J. C.

Pohlhausen's Method for Three-Dimensional Laminar Boundary Layers, p. 51 (May).

DECK LANDING

The Automatic Control of an Aeroplane in the Landing Approach onto an Aircraft Carrier, J. B. Helliwell, p. 241 (February 1952).

DUCTED FANS

A Note on the Design of Ducted Fans, Bryan Thwaites, p. 173 (November).

GOLDSWORTHY, F. A.

Supersonic Flow over Thin Symmetrical Wings with Given Surface Pressure Distribution, p. 263 (February 1952).

HELLIWELL, J. B.

The Automatic Control of an Aeroplane in the Landing Approach onto an Aircraft Carrier, p. 241 (February 1952).

JESSOP, H. T. and C. SNELL

Photoelasticity and Aircraft Design, p. 161 (November).

JOHNSON, D. C.

A New Treatment of the Tuned Absorber with Damping, p. 182 (November).

KLITCHIEFF, J. M.

Beams on Cross-Girders with Clamped Ends, p. 230 (November).

LEGGETT, D. M. A.

A Note on the Stressing of Oleo-Pneumatic Shock Absorbers, p. 128 (September).

LIGHTHILL, M. J.

A New Approach to Thin Aerofoil Theory, p. 193 (November).

LOCKWOOD-TAYLOR, J.

A Direct Aerodynamic Proof of the Biot-Savart Law, p. 238 (November).

MILES, J. W.

A Note on Supersonic Wing Integral Equations in Unsteady Flow, p. 294 (February 1952).

MODEL TESTS

See Structures, Testing.

PALMER, P. J. and S. C. REDSHAW

The Construction and Testing of a Xylonite Model of a Delta Aircraft, p. 83 (September).

PHOTOELASTICITY

Photoelasticity and Aircraft Design, H. T. Jessop and C. Snell, p. 161 (November).

RADOK, J. R. M.

The Theory of Aerofoils in Unsteady Motion, p. 297 (February 1952).

RAILLY, J. W.

The Flow of an Incompressible Fluid through an Axial Turbo-Machine with any Number of Rows, p. 133 (September).

REDSHAW, S. C. and P. J. PALMER

The Construction and Testing of a Xylonite Model of a Delta Aircraft, p. 83 (September).

REVIEWS

Laws of Free Turbulence, H. Reichardt, p. 239 (November).

Normal Elliptic Functions: A Normalized Form of Weierstrass's Elliptic Functions, A. R. Low, p. 80 (May).

SHOCK ABSORBERS

See Structures.

SNELL, C. and H. T. JESSOP

Photoelasticity and Aircraft Design, p. 161 (November).

STOCKER, P. M.

Supersonic Flow Past Bodies of Revolution with Thin Wings of Small Aspect Ratio, p. 61 (May).

STRUCTURES

A Note on the Stressing of Oleo-Pneumatic Shock Absorbers, D. M. A. Leggett, p. 128 (September).

Beams on Cross-Girders with Clamped Ends, J. M. Klitchieff, p. 230 (November).

STRUCTURES—TESTING

The Construction and Testing of a Xylonite Model of a Delta Aircraft, S. C. Redshaw and P. J. Palmer, p. 83 (September).

SUPERSONICS

See Aerodynamics.

THWAITES, BRYAN

A Note on the Design of Ducted Fans, p. 173 (November).

TRAILL-NASH, R. W.

The Symmetric Vibrations of Aircraft, p. 1 (May).

The Anti-Symmetric Vibrations of Aircraft, p. 145 (September).

VIBRATION

A New Treatment of the Tuned Absorber with Damping, D. C. Johnson, p. 182 (November).

The Anti-Symmetric Vibrations of Aircraft, R. W. Traill-Nash, p. 145 (September).

Longitudinal Waves in Beams, R. E. D. Bishop, p. 280 (February 1952).

The Symmetric Vibrations of Aircraft, R. W. Traill-Nash, p. 1 (May).

YOUNG, A. D. and T. B. BOOTH

The Profile Drag of Yawed Wings of Infinite Span, p. 211 (November).
